

## JACK JOHNSON, NEGRO PUGILIST, MAY BE GONE FOR GOOD—WE SHOULD WORRY

Bulletin.

Montreal, June 27.—Canadian government ordered arrest of Jack Johnson, pending deportation if he attempts to remain in dominion. Johnson has through tickets to Europe through Canada, and local authorities cannot hold him if he wants to proceed to France.

Jack Johnson, negro pugilist, under sentence in the federal courts of Illinois for violations of the white slave law, has evaded the jurisdiction of the court and is in Montreal, Can., preparing to sail for France next Tuesday.

His offense is not extraditable. Unless Johnson is turned back to the United States by the Canadian authorities on the ground that he is an undesirable citizen, the federal officials are helpless.

Johnson is under sentence of a year in the penitentiary and a fine of \$1,000. He was temporarily free on \$15,000 bail which will be forfeited if he does not return when the motion for an appeal of his case is heard.

Charles F. DeWoody of the department of justice, who caught Johnson once before when he attempted to flee the jurisdiction of the court, was undecided what court to pursue. Attorney General McReynolds may be asked to request the Canadian government to deport Johnson. Attaches of the department of justice in Washington refused to discuss the case, but there was a belief that the Canadian authorities would return Johnson if the request were made.

In Montreal Johnson said he was going to tour Europe and engage in several prize fights in an effort to recoup his financial losses. Supt. DeWoody said he did not believe Johnson would ever return if he once left America.

If Johnson leaves the United States

the sentence will still hang over him and he can be imprisoned if he ever comes back. There is the ray of sunshine in the situation. If he had gone to Joliet he would have served his year and then been turned loose again on the United States. As it is, the country will be rid of the negro for good.

With Johnson is Lucille Cameron, the white girl who married him after his first white wife committed suicide.

Here's another ray of sunshine. Joe Levy, "a little Jewish boy," Johnson's valet and bedfellow, is with the negro in Montreal and will follow him to Europe. Joe won't come back, because Johnson is his meal ticket.

Matthew S. Baldwin, a real estate operator living in Evanston, and Johnson's mother, Tiny Johnson, are on Johnson's bond.

### TELLS OF COUNTING OF BALLOTS IN REAR ROOM

John I. Sundberg, 1507 Hollywood avenue, a watcher for the Socialist party at last fall's election, told a startling tale of the back room counting of votes to the election commission today.

Sundberg said that the judges and clerks in the thirty-first precinct of the twenty-fifth ward dumped 150 ballots into a suitcase and counted them in the rear room away from where the regular count for that precinct was being made. Only a Democratic clerk and a Republican watcher were present, Sundberg said.

Robert E. Burke, custodian of the County Building, said votes were bought and sold in the south end of the twenty-first ward on election day last November and at other times.

By extracting the moisture, a Derby, Conn., inventor keeps butterfat a long time in such condition that it forms fresh cream when mixed with a little milk.
